CSD 1133 – Submission of Assignments

Overview:

In this course you are required to complete 10 **individual** assignments. The assignments will be released weekly and are designed to review the content covered during the in-class lecture.

Most of the assignments, <u>outside of Assignment 01</u>, will require the completion of a series RAPTOR flowcharts/programs which end with the file extension *.rap.*
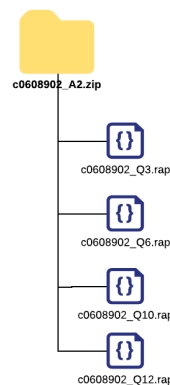

Naming Conventions

All assignment submissions **MUST** be zipped (.zip) folders adhering to the below specifications.

File Names
- o All RAPTOR file names should be in the format: c########_Q##.rap
  - ⇒ For example, if you are answering Question 3 and your C# is c0608902 the file should be named c0608902_Q3.rap

Zipped Folder Name
- o Upon completing **all** the questions for an assignment and naming them properly, enclose them in a zipped folder with the following naming format: c########_A##.zip
  - ⇒ For example, if you are completing Assignment 02 and your C# is c0608902 the zipped folder should be named c0608902_A2.zip
  - ⇒ Assuming Assignment 02, from the above example, consists of the questions 3, 6, 10, and 12 your final folder structure should be similar to:

c0608902_A2.zip
c0608902_Q3.rap
c0608902_Q6.rap
c0608902_Q10.rap
c0608902_Q12.rap

Header Comments
- o Inside the <u>*main*</u> procedure of **each** RAPTOR program you are required to include a header comment with the following information:
  - ⇒ Assignment number

⇒ Question number

⇒ Your name

⇒ Your c#

⇒ Date (dd-mm-yyyy)

o An example of the format is required is shown below. **Replace with your own information.**

⇒ **Note:** To add a comment right click any flowchart symbol → "Comment".
